STANLEY CHATMAN

PRINCIPAL AI PROGRAM LEADER | AI ENABLEMENT | SOLUTION ARCHITECTURE | RESPONSIBLE AI

Matteson, IL | 708-415-6770 | stanchatman@yahoo.com | linkedin.com/in/stanchatman | github.com/stanchat | portfolio

EXECUTIVE PROFILE

Principal AI program leader, solution architect, published researcher, and educator with 20+ years of experience delivering enterprise technology transformation across NiCE, Microsoft, Accenture/Avanade, Deloitte, Atmosera, and regulated clients. Currently leads strategic AI programs at NiCE spanning customer experience, enterprise adoption, governance, value realization, and cross-functional delivery. Combines hands-on knowledge of agentic AI, RAG, cloud architecture, and AI-assisted engineering with executive program leadership, change management, and measurable adoption frameworks.

CORE EXPERTISE

Enterprise AI Strategy & Delivery | Agentic AI & RAG | AI Enablement & Adoption | AI Governance & Responsible AI | AI Centers of Excellence | Technical Program & Product Leadership | Solution Architecture | Executive Communication | Change Management | Value Realization | Agile Transformation | Workshop Facilitation

Azure OpenAI | Azure AI Search | GitHub Copilot | Microsoft 365 Copilot | Copilot Studio | Python | JavaScript/TypeScript | APIs | SQL | Azure | AWS | Vector Search | Embeddings | Prompt/Context Engineering | LLM Evaluation | MLOps/LLMOps | Azure DevOps | GitHub Actions | Jira | Power Platform

PROFESSIONAL EXPERIENCE

NiCE | Principal AI Project Manager, CX | Remote, United States **Jul 2026 - Present**

- Lead strategic AI programs that advance customer experience, enterprise adoption, and measurable business outcomes across product, engineering, governance, and customer-facing teams.
- Drive initiatives from discovery through roadmap definition, delivery, adoption, and value realization while managing dependencies, risks, operating cadences, metrics, and executive reporting.
- Translate emerging AI and agentic capabilities into scalable CX solutions with clear ownership, human oversight, responsible AI controls, and production-readiness criteria.
- Align cross-functional stakeholders around use-case priorities, delivery decisions, adoption plans, and evidence-based measures of customer and business value.

geniant | Solution Architect, AI (Contract) | Remote **Aug 2026 - Sep 2026**

- Led technical discovery and solution architecture for modernization of APA Medical's DME ordering and fulfillment platform, translating stakeholder research into a four-phase product and technology roadmap.
- Assessed the Azure SQL warehouse, HubSpot solution, Brightree integrations, API contracts, and prior implementation artifacts; validated Brightree sandbox capabilities through a focused API test harness.
- Developed the future-state Azure reference architecture, integration strategy, feasibility analysis, HIPAA considerations, delivery sequencing, staffing model, and build-versus-buy recommendations.
- Created detailed basis-of-estimate, TCO, and ROI models connecting individual use cases to delivery effort, operating costs, measurable benefits, and investment scenarios.
- Partnered with research, product, engineering, and executive stakeholders to prioritize order-status transparency, resupply automation, payer authorization processing, and digital order creation.
- Evaluated AI-enabled document processing and workflow automation opportunities while defining boundaries among APA-owned activities, vendor platforms, and specialist delivery work.

Atmosera | Collaborative Engineer, GitHub Copilot | Remote **Feb 2026 - Aug 2026**

- Led enterprise GitHub Copilot enablement through high-touch adoption sprints, workshops, live coding, office hours, playbooks, and executive readouts for engineering cohorts of up to 50 participants.
- Coached developers on agent mode, repository reasoning, custom instructions, MCP-enabled workflows, AI-assisted testing, legacy modernization, secure SDLC practices, and human review.
- Measured adoption and engineering impact through SPACE/DORA-aligned indicators, qualitative feedback, workflow evidence, and recommendations for sustained behavior change.

Deloitte / Elevance Health - Carelon | AI Enablement Coach / Lead | Remote **Sep 2025 - Mar 2026**

- Designed an enterprise AI adoption and governance roadmap covering use-case intake, decision gates, enablement rhythms, feedback loops, success metrics, and responsible AI controls in a regulated healthcare environment.
- Facilitated discovery with product, engineering, QA, operations, delivery, and leadership teams to convert workflow pain points into prioritized AI use cases, implementation requirements, and Jira backlogs.
- Established ideathon and hackathon pathways with mentor support, judging criteria, prototype environments, governance guardrails, and prototype-to-production handoffs.

Microsoft | Principal Technical Program Manager, Industry Solutions Engineering | Chicago, IL **Jan 2021 - Dec 2024**

- Led enterprise AI, cloud, data, DevOps, and platform programs from discovery through delivery, aligning executives, engineering, product, security, privacy, compliance, partner, and customer stakeholders while converting ambiguous objectives into architecture options, roadmaps, delivery plans, risk registers, KPI frameworks, and executive recommendations.
- Delivered the UBS WMPC Smart Assistant, a regulated financial-services GenAI/RAG solution incorporating Azure OpenAI, Azure AI Search, ingestion, chunking, embeddings, grounding, identity controls, quality expectations, and adoption measures; also served as an enterprise OpenAI and Generative AI Champion.

Accenture / Avanade | Senior Group Manager | Senior Solution Architect | Global Agile Lead | Chicago, IL **Sep 2007 - Jan 2021**

- Led consulting and transformation programs for global enterprises, managing teams of 40+ across Azure PaaS/SaaS, CRM, APIs, mobile, data, cloud modernization, DevOps, and enterprise architecture.
- Owned client discovery, solution shaping, architecture, requirements, roadmap planning, backlog execution, testing, release readiness, governance, adoption, and executive reporting across complex matrixed organizations.
- Directed a 25-person Agile CRM program for the Singapore government with a $7M budget, maintaining more than 95% delivery completion against planned scope.
- Built Agile @ Avanade enablement reaching 2,200+ practitioners, including 225 Professional Scrum Developers and five certified global Agile Coaches; assessed delivery alignment for 350+ opportunities and established repeatable methods for deal shaping and transformation governance.

ADDITIONAL LEADERSHIP AND VENTURES

CommunityInsight.AI | Founder and CEO | Remote **Dec 2025 - Present**

- Built an AI-powered civic intelligence platform serving the needs of 19,500+ U.S. municipalities, with five AI agents and integrations to Census, Grants.gov, and SAM.gov data sources.
- Designed grant discovery, matching, ingestion, normalization, metadata, search, alerts, grounded summaries, secure access, and usage analytics from concept through production-ready infrastructure.
- Selected for the PeachScore and Dealum Data-Driven Accelerator, Cohort 26.

City Colleges of Chicago | Adjunct Professor of Computer Science | Chicago, IL **Jul 2025 - Present**

- Teach applied computer science and artificial intelligence through hands-on labs, project-based learning, industry cases, and career-focused mentoring.
- Selected as a Google Career Microcredentials Faculty Champion supporting adoption of Google Career Certificates, AI Essentials, and Prompting Essentials across higher education pathways.

Cognixlab | Fractional CTO | Chicago, IL **Jan 2026 - Aug 2026**

- Advised on AI automation, secure scalable architecture, AI-native product development, and the transition from concept to production.

Brevid | Founder and Builder, AI Video Generation Platform | Remote **2025 - Present**

- Built a multi-stage AI workflow that transforms prompts into scripts, visuals, voice, and final video output through orchestrated generation and refinement services.

EARLIER CAREER

Automation Assistance - Senior Developer, 2000-2007 | RR Donnelley - Manager, 1997-2000 | Morton Grove Pharmaceuticals - IT Manager, 1990-1997
